## CPTS-CERTIFIED PENETRATION TESTER

Istanbul, Türkiye | [security@samkheiri.com](mailto:security@samkheiri.com) | [LinkedIn](#) | [GitHub](#)

---

### PROFILE

CPTS-certified penetration tester with hands-on experience in web applications, networks, Active Directory, and bug bounty research. Combines manual testing with clear, remediation-focused reporting for engineering and business stakeholders.

### EXPERIENCE

#### Penetration Tester | Entekhab Man | Oct 2023 - Jun 2024

- Executed **40+ security assessments** across web applications, identifying **65+ vulnerabilities**.
- Reviewed Active Directory for **200+ users**; remediated **30+ misconfigurations** through least-privilege controls.
- Authored **25+ technical pentest reports** and executive summaries with remediation tracking.

#### Bug Bounty Security Researcher | HackerOne, Bugcrowd, Independent | Mar 2022 - Sep 2023

- Reported **35+ verified vulnerabilities** across **20+ programs** with a **75% acceptance rate**.
- Investigated XSS, IDOR, SQL injection, authentication, and business-logic issues; built Python and Bash reconnaissance scripts.

### SELECTED SECURITY ENGAGEMENTS

**Haft Sang** - Web and network assessment of 15+ endpoints and 8 services; 9 critical findings and a 35-page prioritized remediation report.

**Shen** - Active Directory assessment for 150 users; 12+ security gaps, attack-path analysis, and privileged-access hardening recommendations.

**Steel Structure Pardis** - Tested 6 internal applications and uncovered 18 issues across authentication, session management, and access control.

**Tire** - Identified blind SQL injection and stored XSS; produced proof-of-concept evidence and remediation guidance.

### CERTIFICATION & EDUCATION

**Hack The Box CPTS**, Jan 2025 | **OSCP coursework** completed; exam pending

Computer Engineering studies, Istanbul Aydin University | 2022 - 2026

### SKILLS & LANGUAGES

**Security:** Burp Suite, Nmap, SQLMap, Metasploit, Nessus, Wireshark, BloodHound, Mimikatz, PowerView, OWASP Top 10, CVSS

**Scripting:** Python, Bash, JavaScript, PHP | **Languages:** English, Turkish, Persian
